Riff 1

Figure 1 displays four plots showing the evolution of the number of nodes in a network over time. The plots are arranged in a 2x2 grid. The top row shows the number of nodes in the network (N) and the number of nodes in the network (N). The second row shows the number of nodes in the network (N) and the number of nodes in the network (N). The third row shows the number of nodes in the network (N) and the number of nodes in the network (N). The bottom row shows the number of nodes in the network (N) and the number of nodes in the network (N). The plots show that the number of nodes in the network increases over time, and the number of nodes in the network decreases over time.
